# MME Mathematical Models in Engineering

## Aims and Scope

MME publishes articles describing contributions in the general field of the application of mathematical models in/and engineering applications.

MME welcomes theoretical papers aimed at the application of mathematical tools for engineering problems

MME covers practical aspects and applications with contributions to industrial engineering, mechanical engineering, aerospace engineering, computer and electrical engineering, chemical engineering and bioengineering.

Mathematical models of interest include, but are not limited to, ordinary and partial differential equations, nonlinear analysis, calculus of variations and stochastic processes.

**All published papers are peer reviewed.**

## General Requirements

The authors must ensure that the paper presents an original unpublished work which is not under consideration for publication elsewhere.

The following structure of the manuscript is recommended: abstract, keywords, nomenclature, introduction, main text, results, conclusions and references. Manuscript should be single-spaced, one column 162×240 mm format, using Microsoft Word 2007 or higher. Margins: top 10 mm, bottom 10 mm, left 15 mm, right 10 mm, header 4 mm, footer 7 mm.

Font: Times New Roman. Title of the article 16 pt Bold, authors name 10 pt Bold, title of the institution 9 pt Regular, equations and text 10 pt Regular, indexes 5 pt Regular, all symbols Italic, vectors Bold, numbers Regular. Paragraph first line indentation 5 mm. Equations are to be written with Microsoft Office 2007 or higher Equation Tool.

Heading of the table starts with table number 9 pt Bold as “**Table 1.**”, then further text 9 pt Regular. Table itself 9 pt Regular.

Figure caption starts with figure number 9 pt Bold as “**Fig. 1.**”, then further text 9 pt Regular. Figure itself must be a single or grouped graphical item.

Tables and figures are placed after the paragraph in which they are first referenced.

List of references: reference number and authors 9 pt Bold, further information 9 pt Regular:
